

# DIAGNOSTIC MEDICAL SONOGRAPHY

Degree Type: **Associate Degree**

**Diagnostic Medical Sonographers work with sophisticated ultrasound technology to create detailed internal images of the human body and assist physicians throughout various medical specialties in making diagnoses. Sonographers are in high demand throughout the US, and the Bureau of Labor Statistics projects that by 2024, employment in the field will increase by 26%, far above the national average.**

**Monroe's program in Diagnostic Medical Sonography will provide students with knowledge and understanding of anatomy, physiology and the different sonography specialties, as well as the opportunity to train directly with health professionals. Students will understand the ethical, legal and regulatory standards of diagnostic medical sonography, and will be able to expertly and safely employ and interpret sonographic imaging to assist in diagnosis. Students will also learn to effectively communicate with patients, colleagues, and healthcare professionals and have the option to sit for the national certification examination.**

**The DMS program is a full-time day program.**

## **DID YOU KNOW?**

- + Monroe's School of Allied Health Professions offers eligible students the opportunity to travel during their spring break to provide medical assistance and education to impoverished communities.
- + Monroe's School of Allied Health Professions provides hands-on learning in a state-of-the-art clinical lab that simulates a real-world healthcare setting.
- + US News and World Report ranks Diagnostic Medical Sonographer as #4 in "Best Health Care Support Jobs."

## **POPULAR CAREER PATHS**

Graduates of Monroe's Associate Degree in Diagnostic Medical Sonography will be qualified for employment as a sonographer in the following venues:

- + **State, Local, and Private Hospitals**
- + **Physicians' Offices**
- + **Medical and Diagnostic Laboratories**
